HITĪ NURSERIES

POMFRET CENTER
(CONN.)

Address

JAMES H. BOWDITCH, Proprietor

903 TREMONT BUILDING
BOSTON, MASS.

OR

ROLAND E. BAKER, Manager

POMFRET CENTER, CONN.

USE TELEPHONES UNDER THEIR NAMES

INTRODUCTION

The name "Hiti" signifies high elevation, which gives a longer season, free from early frost and injury to late growth.

This catalog contains only a list of plants grown at Hiti Nursery, *but stock of all kinds is furnished. Prospective buyers are invited to call at or write to the Boston office and discuss their wants. Mr. Roland E. Baker will attend to all direct Nursery customers.*

The Nursery, on Dana Road, is about a mile by road from Pomfret Station of the N. Y., N. H. & H. R. R., or a short ten-minute walk up the railroad track. Visitors to the Nursery between April 1st and November 1st will find some one at hand during business hours to show the stock and take orders. Large specimen trees can be seen on property near by, showing the beauties of their older growth.

In these days of automobile travel customers find it easy to visit Pomfret and *select their plants personally.* In this way they see for the first time perhaps some handsome new things that are just what are wanted for certain effects or uses. If they come prepared, the plants can generally be dug at once and taken away with them, thus saving time, cost in packing and transportation, besides affording the plants themselves only a slight shock in their removal. We strongly advise this course whenever practicable.

The nursery is closed during the winter months, though of course it is open to inspection at any time. There is no glass on the premises, consequently no winter attendant. The whole area embraces only about eight or ten acres, on which are two small buildings used as tool and packing houses. *All plants are thus taken up near at hand and can be quickly packed without loss of time or injury from root exposure, a very great advantage to purchasers. The roots are packed in fresh sphagnum moss, which is a great benefit and safeguard if delayed in transit.*

Large sized stock in quantity can be delivered economically by auto as far as Boston to arrive in perfect condition.

Regular shipments by express or freight carefully put up and f. o. b. at cost of packing.

Terms cash, unless otherwise agreed upon.

JAMES H. BOWDITCH, Proprietor,
903 Tremont Building, Boston, Mass.

State of Connecticut

No. 1374

Date—AUGUST 30, 1923.

OFFICE OF STATE ENTOMOLOGIST
CONNECTICUT
AGRICULTURAL EXPERIMENT STATION
NEW HAVEN, CONN.

CERTIFICATE OF NURSERY INSPECTION

This is to certify that the nursery stock of Hiti Nurseries of Pomfret Center, Conn., has been duly examined in compliance with the provisions of Section 2119 of the General Statutes, Revision of 1918, and that it is apparently free from dangerously injurious insects and plant diseases.

This certificate expires September 1, 1924.

W. E. BRITTON,
State Entomologist.

EVERGREENS.

Each

45	Abies Arizona argentea, 3 to 6 ft.	\$7.00 to \$15.00
37	“ “ “ 2 to 3 ft.	5.00 to 7.00

One of the best new hardy evergreens. Silvery blue-green in color.

15	Abies concolor, 5 to 7 ft.	6.00 to 10.00
40	“ “ 3 to 5 ft.	4.00 to 6.00

A handsome Colorado conifer.

28	“ nobilis glauca, 3 to 4 ft.	10.00
20	“ Nordmanniana, 5 to 7 ft.	10.00
5	“ Veitchii, 6 ft.	8.00
5	Andromeda Catesbaei, 2 ft.	2.00
100	“ floribunda, 6 to 8 to 10 in.	1.00
25	Buxus Japonica aurea, 12 to 15 in.	1.50
200	“ thymifolia, 12 to 15 in.60
50	Euonymus radicans, large.	1.00
25	“ “ Carriere P., 2 to 2½ ft.	3.00
200	“ “ “ “ 18 to 24 in.	2.00
275	“ “ “ “ 12 in.	1.25

A light green evergreen bush with handsome fruitage.
Makes excellent low hedge.

70	Euonymus Kewensis, 12 to 18 in.	1.00
12	“ “ latifolia, 5 ft. spread	10.00
60	“ “ 4 ft.	6.00
40	“ “ 3 to 4 ft.	5.00
200	“ “ 18 to 24 in.	2.50
250	“ “ 12 to 18 in.	1.50

A dark green evergreen bush with handsome fruitage, far more easily grown and established than Rhododendron for general evergreen effect.

		Each
6	Euonymus Sieboldii, 4 ft.	\$5.00
130	“ rotundifolia (vegetus), 18 to 24 in.	1.00

		Each
150	<i>Euonymus radicans variegata</i> , 2 to 3 ft. . .	\$1.00
70	“ “ “ 12 to 18 in.	.60

For border plant or evergreen vine.

75	<i>Ilex glabra</i> , 12 to 18 in.	1.00
20	<i>Juniperus Chinensis procumbens</i> , 2 to 2½ ft. spread	3.00
80	“ “ “ 18 to 24 in.	2.00
400	“ “ “ 8 to 12 in.	1.00
30	“ “ “ (Blue type), 2 to 3 ft.	3.00
120	“ “ “ (Blue type), 6 to 10 in.	1.00

This variety of Chinese Juniper is very handsome, hardy, and of dense spreading habit.

		Each
40	<i>Juniperus communis aurea</i> , 2 ft.	\$1.50
125	“ “ “ 8 to 12 in.	1.00
100	“ “ “ 6 to 8 in.60
75	“ <i>Dayii</i> , 2 to 3 ft.	1.00
60	“ “ 18 to 20 in.60
150	“ “ 12 to 18 in.50
6	“ <i>Hibernica</i> , 3 ft.	3.00
280	“ “ 12 to 18 in.50
20	“ <i>Pfitzeriana</i> , 3 ft. spread.	4.00
75	“ “ 2 ft. spread.	2.50
300	“ “ 18 to 24 in.	2.00
200	“ “ 12 to 18 in.	1.50
300	“ “ 10 to 12 in.75

Handsome and hardy, of both upright and spreading habit.
One of the best.

2	<i>Juniperus Nord du Chine</i> , 3 ft.	2.50
100	“ “ “ “ 12 to 15 in.60
40	“ <i>Waukegan</i> , 12 to 18 in.	1.25
50	“ “ 6 to 10 in.60

A hardy Michigan prostrate Juniper. Excellent.

22	“ “ “ 18 to 24 in.....	3.00
100	“ “ “ 12 to 18 in.....	2.00

We desire to call attention to our stock of *Taxus cuspidata erecta* which has been carefully grown to single leads, and should be trimmed once a year to keep it in best form and condition. It makes a fine background for any evergreen planting, far superior to Pines and Spruces, except perhaps in heavy screening or wind breaks.

		Each
100	<i>Taxus cuspidata erecta nana</i> , 6 to 12 in...	\$2.00
25	“ <i>Hibernica fastigiata</i> , 2 to 2½ ft....	2.50
25	“ “ “ 18 to 24 in....	2.00

50	“ “ 2 to 2½ ft.....	3.00
100	“ “ 18 to 24 in.....	2.50
200	“ “ 12 to 18 in.....	1.50

One of the best dwarf Yews, and splendid bushy stock.

10	<i>Taxus Sieboldii</i> , 2½ to 3 ft.....	5.00
15	“ <i>Washingtoni</i> , 3 ft.....	5.00

The Japanese Yews (*T. cuspidata*) are of exceptional hardiness, good coloring, and generally speaking, by far the most satisfactory of the entire Yew family; and we therefore confidently recommend their broad use for many purposes.

The handsomest forms have been carefully selected and stock of these grown from outdoor cuttings so that the result is sure and exact. We urge prospective customers, or simple visitors, to inspect these young plants and see for themselves their intrinsic beauties. If, however, distance or inconvenience interfere with personal selection, we will gladly make this choice for you if a general statement of planting conditions are given us as a guide to a wise furnishing of what is really needed.

Many old customers living at distance, request us to forward to them from time to time any new or desirable things that we come across in our Landscape work.

		Each
60	<i>Thuja Little Gem</i> , 12 to 18 in.....	\$1.50
50	“ “ “ 6 to 8 in.....	.75
20	“ <i>Columbia</i> , 12 to 18 in.....	2.00

Some rare varieties of stock not listed, to be
priced on personal examination.

CONCLUSION.

It is sometimes asked why we do not publish a full descriptive Catalogue. Our reply is that the Nursery is small; intended mainly to supply the immediate needs of the proprietor and his personal customers, and we find that there are comparatively few people, as purchasers, who do not know or cannot find out what the list offers through the ordinary botanic names, and we are willing always to explain further to those who are in doubt about anything.

Among our regular customers are included today house architects, engineers, and nurserymen who desire prompt attention, choice stock, and the most careful handling and packing: i.e., reliable service.

LANDSCAPE GARDENING

Large or small country places are carefully treated with reference to outdoor improvement.

Gardens of all kinds made to fit any condition offered.

Combination fruit and flower designs are often very useful and effective, where space is more or less limited and good cultivation easily maintained.

JAMES H. BOWDITCH.
